

Your Academic Future: Is your path clear?

Hello! We are a group of students researching how to improve career guidance in high school. The goal of this short survey is to find out whether you feel you receive enough useful information when choosing what to study, or if, on the contrary, you feel somewhat lost and stressed about this decision.

3. Right now, do you have a clear idea of what you'll study after high school? *

Marca solo un óvalo.

- ☐ Yes, I'm 100% sure
- ☐ I have 2 or 3 options in mind, but I'm unsure
- ☐ I have absolutely no idea, I feel really lost

4. If you had to describe your current situation regarding your interests and future options, what would you say? *

Marca solo un óvalo.

- ☐ I know perfectly well what I like and which degree fits that
- ☐ I know what I like, but I don't know which real degrees are related to it.
- ☐ I like very different things and don't know how to combine them into a single degree
- ☐ I'm completely lost, I don't know what I'm good at or what I like

5. Do you feel you receive enough useful, clear, and personalized information at your school about the different degrees? *

Marca solo un óvalo.

- ☐ Yes, the school's guidance helps me a lot
- ☐ Partially, I get general information, but I feel something more personalized is missing
- ☐ No, the information is scarce, unclear, or outdated

6. Have you ever taken a classic career guidance test? *

Marca solo un óvalo.

- ☐ Yes, and it helped me make a decision
- ☐ Yes, but it felt extremely long and boring, and the result didn't really fit me
- ☐ No, I've never taken one

7. What is your biggest fear when it comes to deciding your academic future? *

Marca solo un óvalo.

- ☐ Starting a degree and realizing after a few months that it doesn't make me happy (wanting to quit).
- ☐ The degree being too difficult and getting frustrated
- ☐ Not reaching the required grades for what I really want
- ☐ Studying something that later has poor job prospects
- ☐ I have no fears; everything is clear for me

8. When choosing a degree, what do you think is most important for you in the long term? *

Marca solo un óvalo.

- ☐ Aptitude: That the degree involves things I'm good at or get good grades in
- ☐ Satisfaction: That I enjoy the daily work of the profession and it makes me happy
- ☐ Both equally

9. If there were a free mobile app that analyzed your real interests and recommended degrees that perfectly fit you, would you use it? *

Marca solo un óvalo.

- ☐ Yes, without a doubt
- ☐ Maybe, I would try it to see what it suggests
- ☐ No, I prefer to look for information on my own

10. Imagine that this app, besides recommending a degree, used Artificial Intelligence to predict your 'Satisfaction Index'. That is, it calculates a percentage (e.g., 85%) of the likelihood that you will feel happy and not drop out of that degree in the future. Would you consider this very helpful? *

Marca solo un óvalo.

- ☐ Yes, it would be amazing and would give me a lot of confidence in choosing
- ☐ It sounds interesting, but I wouldn't rely solely on a percentage
- ☐ I don't see it as necessary, it's enough for me to know what the degree is about.

11. To prevent you from getting tired answering, the app would first ask a few general questions to detect your field and only then ask specific questions about that sector. Would you prefer this quick and dynamic method over a traditional long test? *

Marca solo un óvalo.

- ☐ Yes, much better to get straight to the point with dynamic questions
- ☐ I don't mind, long tests are fine if the result is good

12. Finally, what would help you MOST right now to make a calm and confident decision about your future?
